

Item# 40201 - 2 fl. oz

## SKIN ENHANCER™

The "Triple Molecular Adhesion" process uses natural, pre-digested, organic plant-derived ingredients that are so minute they penetrate your skin to the level of the dermis, where the basal cells are born. These 75 major and trace submicron particles make nourishing the skin possible from the inside out. Hydrophilic, organically-derived, colloidal minerals can effectively penetrate to this layer. The technological processing method which produces this incredible skin cream, creates the strongest-ever mechanics for rejuvenating skin molecules! Your skin reproduces new skin cells every 28 days. In less than a month of nourishing your skin from the inside out with the Invision™ Hydrophilic Organic Colloidal Mineral Skin Enhancer™, you will begin to see why this revolutionary skin cream is the best thing that ever happened to your skin!

INGREDIENTS: DI Water, Aloe Vera, Glyceryl Stearate [and] Peg - 100 Stearate, Caprylic/Capric Triglyceride, Sodium Chloride [and] Lecithin [and] Tocopheryl Acetate [and] Cholecalciferol [and] Riboflavin [and] Pantothenic Acid [and] Pyridoxine [and] Ascorbic Acid [and] Polysorbate 80 [and] Phenyl Methanol [and] Tetrasodium Edta [and] Quaternium - 5 [and] Sd Ethyl Alcohol [and] Cholesterol [and] Diazolidinyl Urea, Stearic Acid, Glycerin, Hydrogenated Polyisobutene, Jojoba Oil, Cetyl Alcohol, Colloidal Minerals, Saccharomyces/silicon, Magnesium, Copper, Iron, Zinc Ferment, Squalene, MSM, Imidazolidinyl Urea, Propylparaben, Methylparaben, Dimethicone, Carbomer, Xanthan Gum, Fragrance.
